Also, the need for broadband wiring and for connection to broadband service in the households, as well as the need for increased competition by having more than one service provider should also be discussed within the plan.
10. **NEW – Natural Hazard Risk** – The consultant will need to evaluate the vulnerability of housing occupied by low- and moderate-income households to natural hazard risks associated with climate change. This will involve consultation with agencies whose primary responsibilities include the management of flood prone areas, public land, or water resources. 5. The plan must estimate the number of housing units within the jurisdiction that are occupied by low-income families or moderate-income families that contain lead-based paint hazards.
6. Describe and identify the public housing developments and public housing units in the jurisdiction, the physical condition of such units,

the restoration and revitalization needs, Section 504 needs, and the public housing agency's strategy for improving the management and operation of such housing, and for improving the living environment of low- and moderate-income families residing in public housing.

These include tax policies affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment.
8. Provide an inventory of facilities, housing, and services that meet the needs of homeless persons within the jurisdiction, particularly chronically homeless individuals and families, families with children veterans, and their families, and unaccompanied youth. This inventory must include both services targeted to homeless persons and mainstream services, such as health, mental health, and employment services to the extent those services are used to complement services targeted to homeless persons.

B. Agency Responsibilities

IV. Strategic Plan

A. Consultant Responsibilities

1. Priority Needs - The consultant must describe the priority needs that will be addressed by the goals outlined in the Strategic Plan. This section should clarify the rationale for establishing the allocation priorities. The rationale should flow logically from the analysis in the Needs Assessment and Market Analysis.
2. Influence on Market Conditions – The housing strategy must indicate how the characteristics of the housing market have influenced grantee decisions to use funds for rental assistance, production of new units, rehabilitation of old units, and the acquisition of existing units.
3. Anticipated Resources – The plan must estimate the resources that will be available to address the grantee's priority needs. The level of resources available will play a key role in determining strategies and goals. Grantees should consider all resources within the jurisdiction's control that can be reasonably expected to be available, including federal, state, and local resources.

4. Institutional Delivery Structure – The plan must provide a concise summary of the organizations that will carry out the identified objectives. While not necessary to identify every potential subrecipient and partner, the plan should describe the framework of organizations that will carry out the plan.
5. Goals – The plan must include summaries of the objectives the grantee intends to initiate and/or complete during the timeframe of the Consolidated Plan. For each objective, grantees must identify proposed accomplishments and outcomes in quantitative terms. To assist with this, grantees must use one or more of the 22 Goal Outcome Indicators (GOI) to specify proposed numeric accomplishments the jurisdiction hopes to achieve over the course of the Strategic Plan. The goals should specifically address the priority needs.
6. Public Housing – The plan must include the jurisdiction's plan to meet the needs of public housing residents and public housing developments.
7. Barriers to Affordable Housing – The plan must identify strategies for removing or ameliorating any negative effects of public policies that serve as barriers to affordable housing. Such policies include tax policy affecting land and other property, land use controls, zoning ordinances, building codes, fees and charges, growth limits, and policies that affect the return on residential investment.
8. Homelessness Strategy – The plan must describe the jurisdiction's strategy for reducing and ending homelessness through outreach, shelter activities, rapid re-housing, and homeless prevention. The strategies should consider both the housing and supportive services needed in each stage of the process.
9. Lead-Based Paint Hazards – The plan must outline the jurisdiction's proposed actions to evaluate and reduce lead-based paint hazards and how housing policies and programs will address this issue.
10. Anti-Poverty Strategy – The plan must provide a concise summary of the jurisdiction's goals, programs, and policies for reducing the number of poverty-level families. The plan should also address how housing programs funded through the Consolidated Plan will be coordinated with the jurisdiction's other programs and services in order to reduce the number of poverty-level families. These policies may include the jurisdiction's policies for providing employment and training opportunities to Section 3 residents.
11. Priority Housing Needs – The Consultant must describe the relationship between the allocation priorities and the extent of need given to each category of priority needs. These categories correspond with special tabulations of U.S. census data provided by HUD for the preparation of

the Consolidated Plan. The Consultant must provide an analysis of how the characteristics of the housing market and the severity of housing problems and needs of each category of residents including the non-homeless special needs population, provided the rationale for establishing the allocation priorities and use of funds made available for each priority housing need category, particularly among extremely low-income, low-income, and moderate-income households. The plan should be explicit about what the jurisdiction plans to do with formula grant funds in the context of their larger strategy. Family and income types may be grouped in the case of closely related categories of residents where the analysis would apply to more than one family or income type.

12. Identify any obstacles to meeting underserved needs.
13. Describe other special needs of the Consortium and summarize the non- housing community development needs including economic development activities that create jobs.
14. Address fair housing needs and discrimination, for each individual jurisdiction, based upon information from current resources, statistics and local Fair Housing Agencies, as well as the current Analysis of Impediments to Fair Housing Choice for the region.

The plan should include but not limited to Continuum of Care, public and assisted housing providers, and private and governmental health, mental health, service agencies and services for the homeless. With respect of economic development, the plan should describe coordination with private industry, businesses, developers, and social service agencies.

17. Identify specific objectives for minority homeownership.

B. Agency Responsibilities

2. Complete the Monitoring Section that describes the standards and procedures the jurisdiction will use to monitor their housing and

community development projects and ensure long-term compliance with program and comprehensive planning requirements.

3. Identify specific long- and short-term community development objectives.
4. Link the Community Development Strategy to existing/ongoing regional and municipal planning activities.
